

Microservices Final Project Score Sheet

Student Names: Monroy, Adrian Gabriel M.

Naag, Tyrone John Paul Z.

YEAR/SECTION: CPE32

INSTRUCTOR: Sir Ron Anthony Delos Santos

1. Overall Design & User Experience (20 points)

Evaluates the visual appeal, usability, and structure of the website.

Criteria		POINTS	SCORE
Layout & Aesthetics	Clean, professional, visually appealing, consistent design	10	
Navigation & UX	Intuitive, easy to navigate, responsive	10	

2. Functionality & System Behavior (30 points)

Assesses whether the system works as expected and delivers meaningful features.

Criteria		POINTS	SCORE
Core Features	Social Media Features was met	20	
Performance	Free from errors and bugs	10	

3. API Usage & Relevance (30 points)

Focuses on how APIs are selected and implemented.

Criteria	Excellent (20–25)	POINTS	SCORE
Number of APIs	5 or more APIs fully implemented	10	
Relevance	APIs are meaningful and enhance functionality	15	
Implementation	Efficient API calls	10	

4. Code Quality & Structure (20 points)

Evaluates coding practices, organization, and originality.

Criteria		POINTS	SCORE
Code Organization, Originality and use of AI Tools	Well-structured, modular (microservices applied properly), clearly student-written and demonstrated understanding	20	

TOTAL SCORE: _____
